

# Camp Catering

Catering for camp can be daunting and very time consuming but the results will often be the one thing that a lot of people remember about the camp.

Attached below are a couple of documents that may help, that are based on experience of catering for Kesgrave and District group camps where numbers have varied from 5 to 500.

The camp shopping spreadsheet provides a full list of things to purchase plus it calculates the overall total and any recovered costs.

The camp catering notes provides general hints and tips.
